A PASSING GLIMPSE  
1991

## THE PASTURE

I'm going out to clean the pasture spring;  
I'll only stop to rake the leaves away  
(And wait to watch the water clear, I may)  
I sha'n't be gone long.-You come too.

I'm going out to fetch the little calf  
That's standing by the mother. It's so young  
It totters when she licks it with her tongue.  
I sha'n't be gone long.-You come too.

-Robert Frost

## DEDICATION

Who else walks down the hallway in her bright turquoise sneakers, tilting her head and smiling as she goes?

Who else at VUHS was brave enough to take 30 teenagers to Germany, get lost in West Berlin and make it back to Vergennes without losing even one of them, and still be able to smile?

Who else foots the bill for frequent candy prizes for "Ich Habts" to get the kids to study?

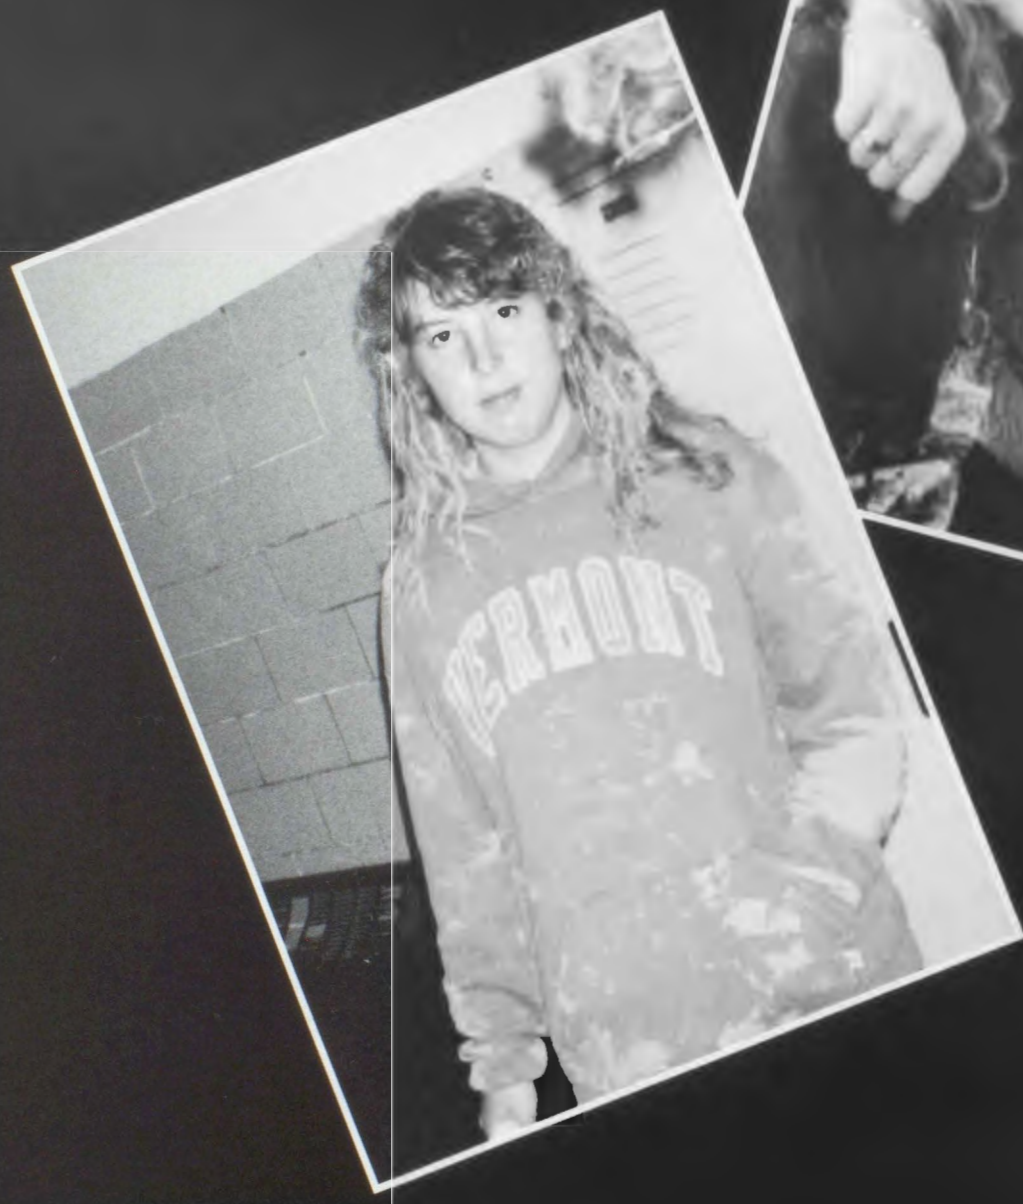

Who else would dare to take a bus load of impatient kids on an eleven hour bus ride to Pennsylvania to see some Amish people in horse drawn buggies?

Who else was called out of class to restrain her son while the nurse pulled a bee stinger from his ear?

Who else but Mrs. Joy Minns deserves to have the 1991 *Blue and White* dedicated to her?

I only hope that when I am free  
As they are free to go in quest  
Of the knowledge beyond the bounds of life  
It may not seem better to me to rest.

## IN MEMORIAM

Those of us who were lucky enough to know Chris realize now, more than ever, what a friend he was and how much we really loved him. There are so many good memories we have of him; there is no way he will ever be forgotten. *Junior* (joon' yer) adj. (Latin-juvenis) 1. the younger, 2. of later date, 3. relating to the third year in high school. Webster tells us that, but everybody at VUHS knows that juniors are jokers, stuck up, people with an easy life and a prom to plan for, getting ready to leave high school, crammin the credits, not quite seniors, almost out of here,

lucky people who know they have but one year to go 'till freedom.

*Soph-o-more* (saf e mor') n.(altered after Greek sophos- wise + moros, foolish) 1. a student in his second year of high school. /That what Webster says of sophomores. But at VUHS a sophomore is sophisticated, wild, stuck in the middle, wacked, a special, a cool person who respects others in return for friendship and advice and knows what he wants but doesn't know how to get it.

**Fresh•man** (n.,pl-men) 1. beginner; novice 2. a student in the ninth grade in high school. A recent pole taken at VUHS reveals that freshmen are just beginning high school, getting used to high school, cool, obnoxious, moved up in the world, immature, just a kid, a person who has a long time to look forward to in finishing high school, and has time to find his future.

### WHAT FIFTY SAID

When I was young my teachers were the old.  
I gave up fire for form till I was cold.  
I suffered like a metal being cast.  
I went to school to age to learn the past.

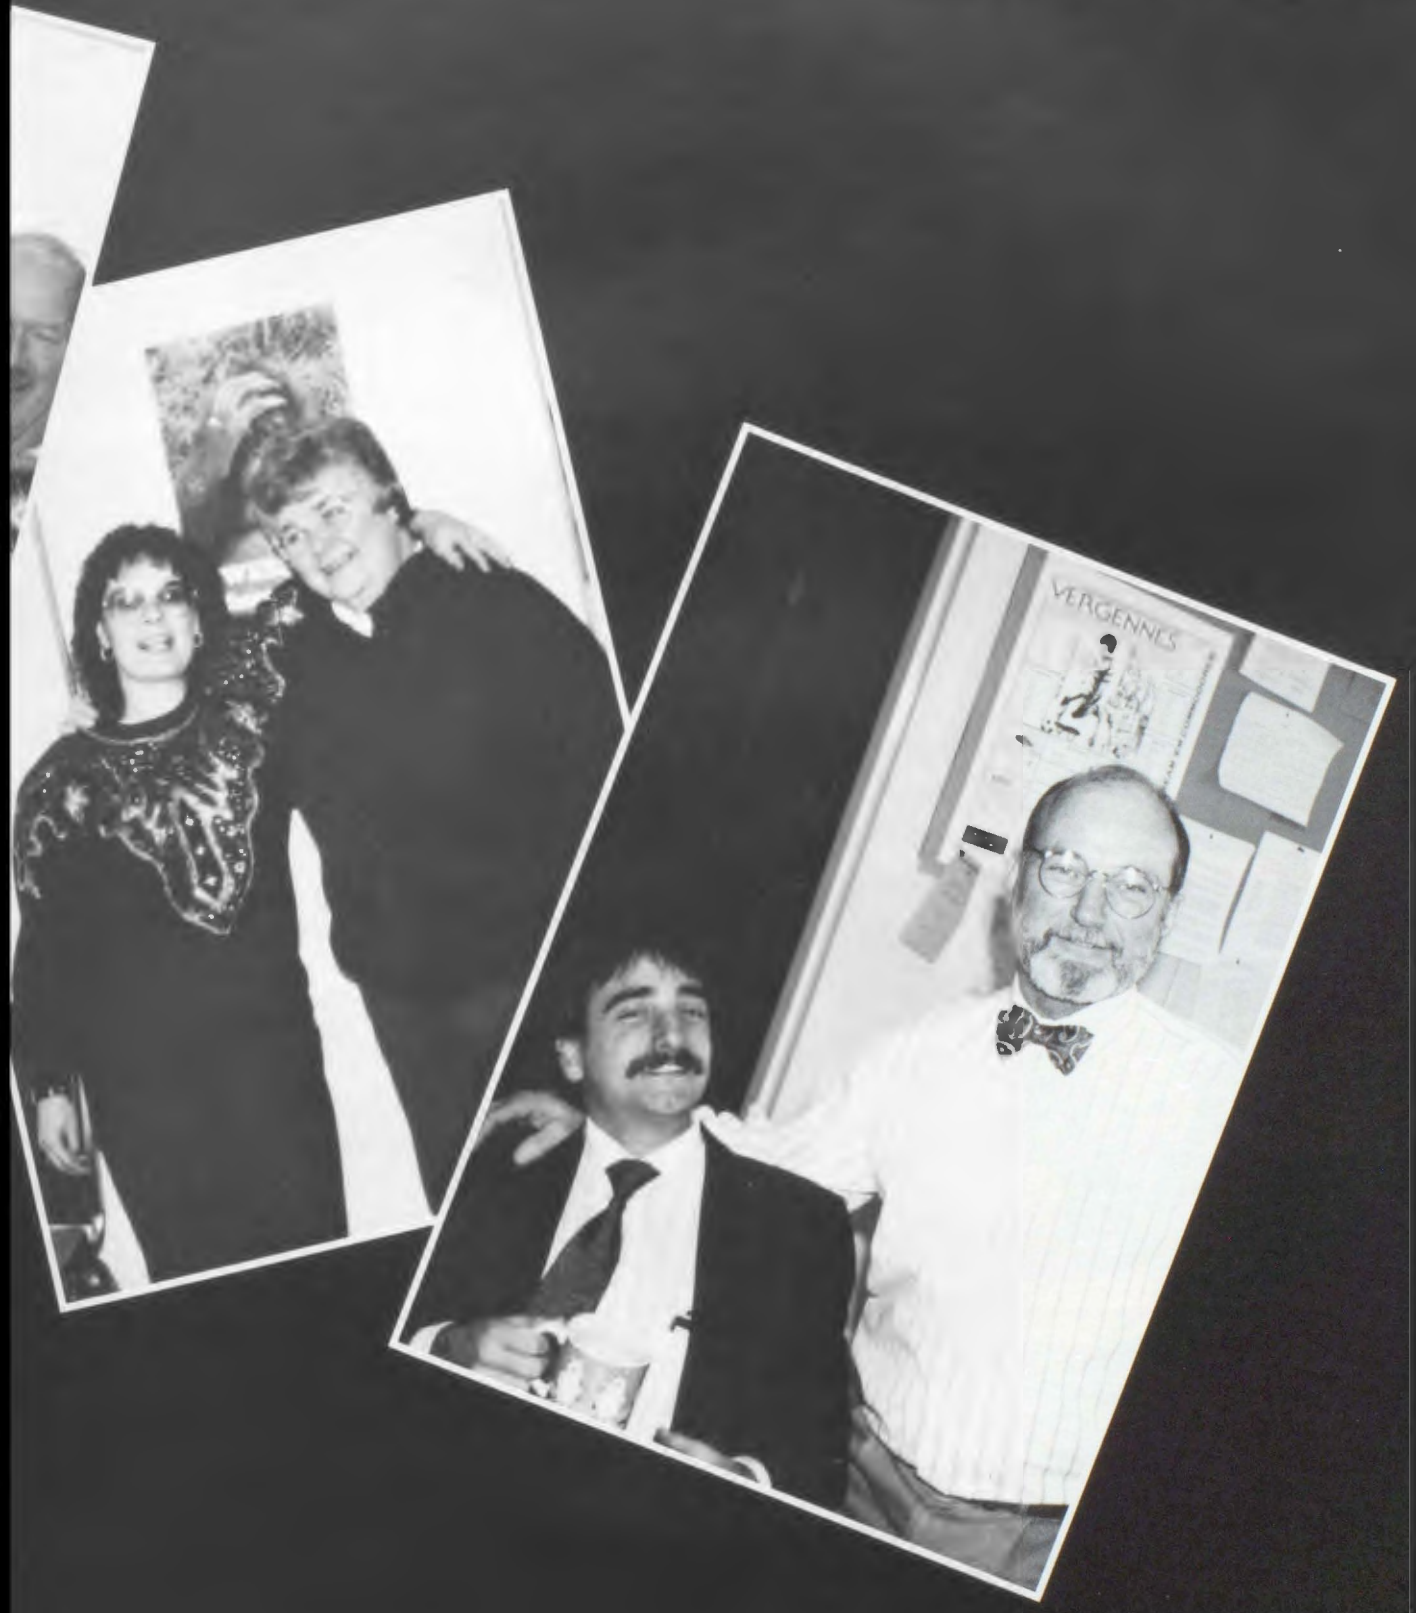

Now I am old my teachers are the young..  
What can't be molded must be cracked and sprung.  
I strain at lessons fit to start a suture.  
I go to school to youth to learn the future.

## IN MEMORIAM

As Special Services Coordinator, Gail worked throughout the district causing all who worked with her to give 100% because she brought out the best in people. Her enthusiasm was contagious. Whether it was a student, a staff member, a friend, or one of her adopted animals, she showed her sincere caring which made each feel important.

We have suffered a great loss in Gail's death but the programs that she began will continue on as a testimony to her.

A 1976 graduate of VUHS, Miss Nancy McNulla returned to her home town to teach at her alma mater after majoring in math at Johnson State College. This year she was our Teacher of the Year honored at UVM.

Besides teaching Pre-Cal, Calculus, Geometry and other math classes, she has coached Junior High Basketball, and J. V. Softball. She also advises the Math League which competes with other math teams throughout the state.

She also sponsors the Smarties Club- an exclusive club to which only the smartest math students can gain membership. The symbol of membership is a tiny roll of colorful disks wrapped in cellophane. Are you a "Smartie"?

## GAZING AT THE STARS

One of the newest additions to VUHS is a small building behind the school between a couple of soccer fields. This is the VUHS observatory, designed and built by Wayne Ganson. Mr. Ganson, who teaches Physics, Humanities in Intro. to Computers, as well as Astronomy has finally realized a long awaited dream. The observatory's grand opening was held early this spring. Mr. Ganson, a 1955 graduate of the old Vergennes High School studied at U.V.M. and came back to Vergennes to teach. He has served as science department chairman in the past and has built the department over the years, introducing computers and astronomy to the curriculum. Now with his new observatory he can gaze at the stars with ease.

### WHO IS MR. PECOR?

Not many students or teachers at VUHS don't know Mr. Pecor. Who's Mr. Pecor? No one calls him that! He's known as Perry. Perry is always available to drive a bus to a game, a field trip or his daily bus routes. Everyone loves to ride on Perry's bus because he tunes his radio to the station the kids like. He doesn't nag or threaten or yell as kids do what kids always do on a bus- have fun. They know that Perry will always play a favorite tune to make a long trip a little shorter.

# EXCHANGE STUDENTS

LANTA RONNING-NORWAY

I am from Hamburg Germany. Hamburg is a town with a population of 1.9 million people and is half as large as the capitol, Berlin. The United Germany has a population of 83 million people.

The first week after my arrival on August 19, I had a typical cultural shock because I expected Vergennes to be a little bit bigger; but after three weeks, I started to like this town and Vermont.

The school system in Germany is different than the one in the United States. We have three different kinds of schools. Hauptschule, Realschule and Gymnasium. The differences are easy: Hauptschule graduates after 9th grade, Realschule after 10th and the Gymnasium after 12th grade. You have the best opportunities when you graduate from the Gymnasium because if you want to go to college you have to finish Gymnasium; therefore, it's the most difficult form of those three schools. When I go back, I have two years left to graduate from the Gymnasium and to go to college afterwards. I have a twin brother, and an older brother who is 28. My father is a Doctor and my mother is "just a mom." My hobbies are sailing, tennis and soccer.

Participation in the AISE/STS exchange program has been a great opportunity to experience life in the United States. My year at VUHS has been enlightening and enjoyable. I have been pleasantly surprised at how friendly and helpful the faculty and students have been toward me. The American language, food, political and school systems are a lot different than Norway's. The weather, mountains and trees in Vermont are quite similar to those at home.

I've stayed in Addison with a very nice and friendly host family, Grace and Alec McIntosh and their two young boys ages 2 and 7.

I've been able to see some of the U.S. like Boston, N.Y. City, New England and part of Canada. I liked them a lot.

Being away from my family and friends can be very hard, but I don't regret that I went abroad. If you ever get the chance try it-it's worth it!

JAN KLEINERT-GERMANY

School in Bolivia is very different compared to here. In Bolivia we don't change classrooms. We stay in the same room but the teachers change after every period. We take fourteen obligatory classes each year. Every day we have eight periods, but every day is a different class, and the weeks are the same. We don't have lunch in the school, because the school finish at 1:30, and everybody got home to eat.

We have many different customs in Bolivia. One is called "Carnival," and takes place in February. Everyone plays with water and all people and things get very wet. I have enjoyed very much my year in Vermont.

## BIRCHES

... I should prefer to have some boy bend them  
As he went out and in to fetch the cows-  
Some boy too far from town to learn baseball,  
Whose only play was what he found himself,  
Summer or winter, and could play alone...

-Robert Frost.

Eighth Grader (ath gra•der) n. the one following seventh grader. Webster tells us this, but here at VUHS we find that eighth graders are soon to be ninth graders, young, loud, sure they are cool, noisy, older than seventh graders, shot out of cannons by Mr. Ganson, uncontrolled, kids on their way through school learning to cope with the world and VUHS.

Seventh Grader (seventh grader) 1. coming after sixth grade. At VUHS, the seventh graders are our newest arrivals, loud, immature, noisy, new, the beginning, small, younger than the rest of us, too happy to be in high school, young people who are beginning to realize how to live with older people, and meet new and harder goals and have lots of time to mature.

### A PASSING GLIMPSE

I often see flowers from a passing car  
That are gone before I can tell what they are.

I want to get out of the train and go back  
To see what they were beside the track.

I name all the flowers I am sure they weren't:  
Not fireweed loving where woods have burnt-

Not bluebells gracing a tunnel mouth-  
Not lupine living on sand and drouth.

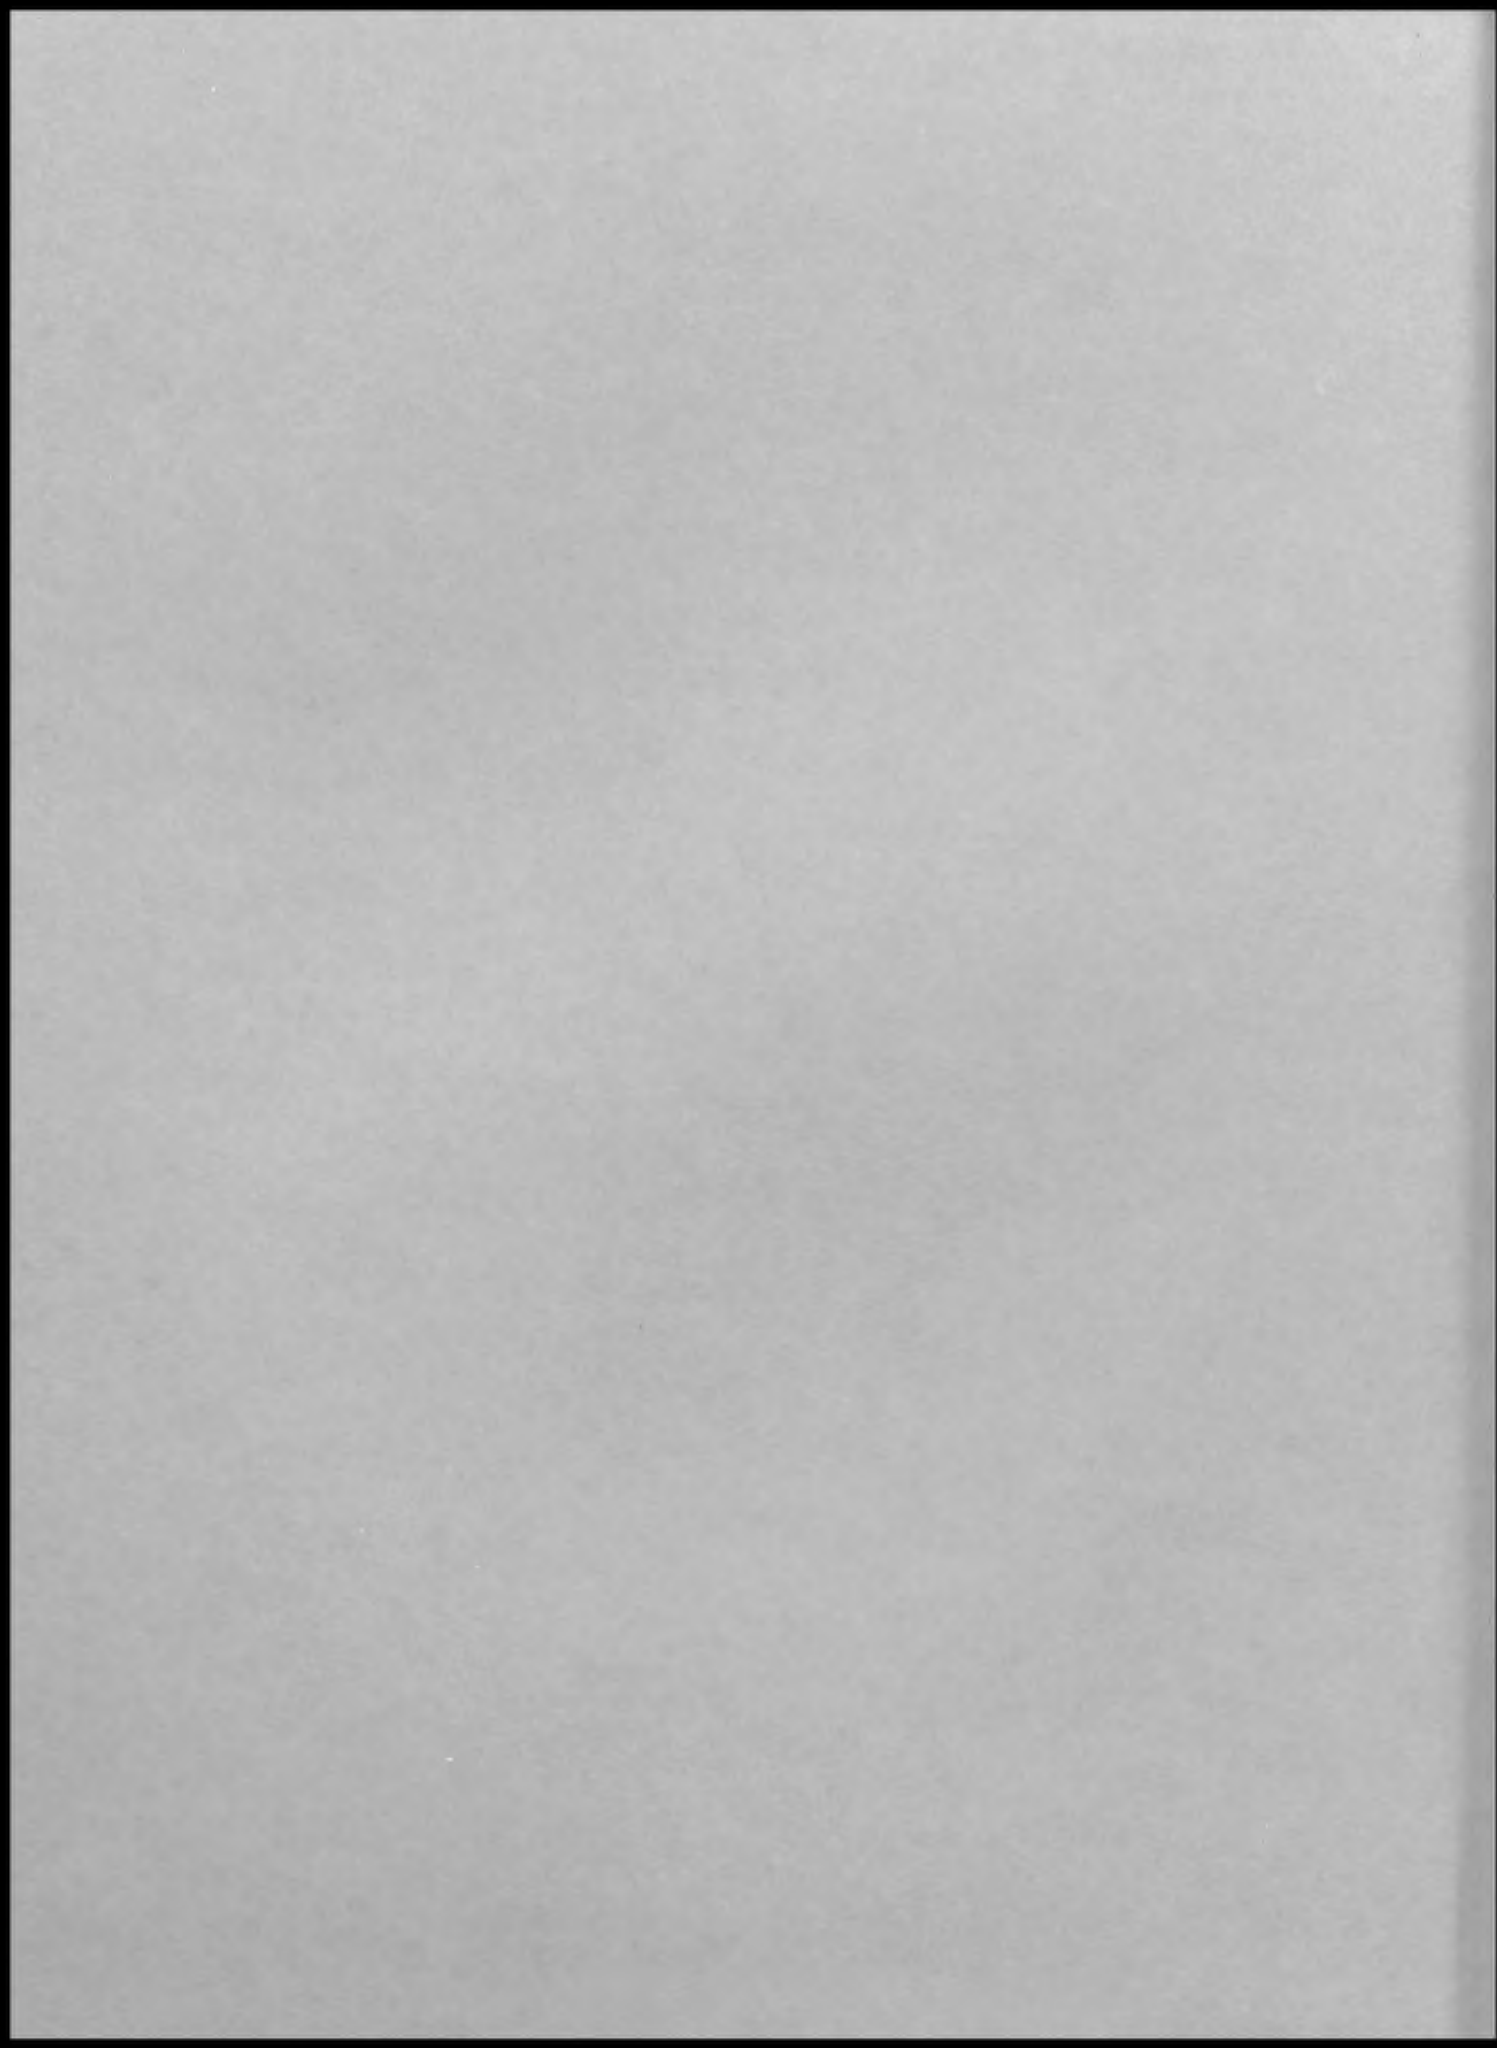

Was something brushed across my mind  
That no one on earth will ever find?

Heaven gives its glimpses only to those  
Not in position to look too close.

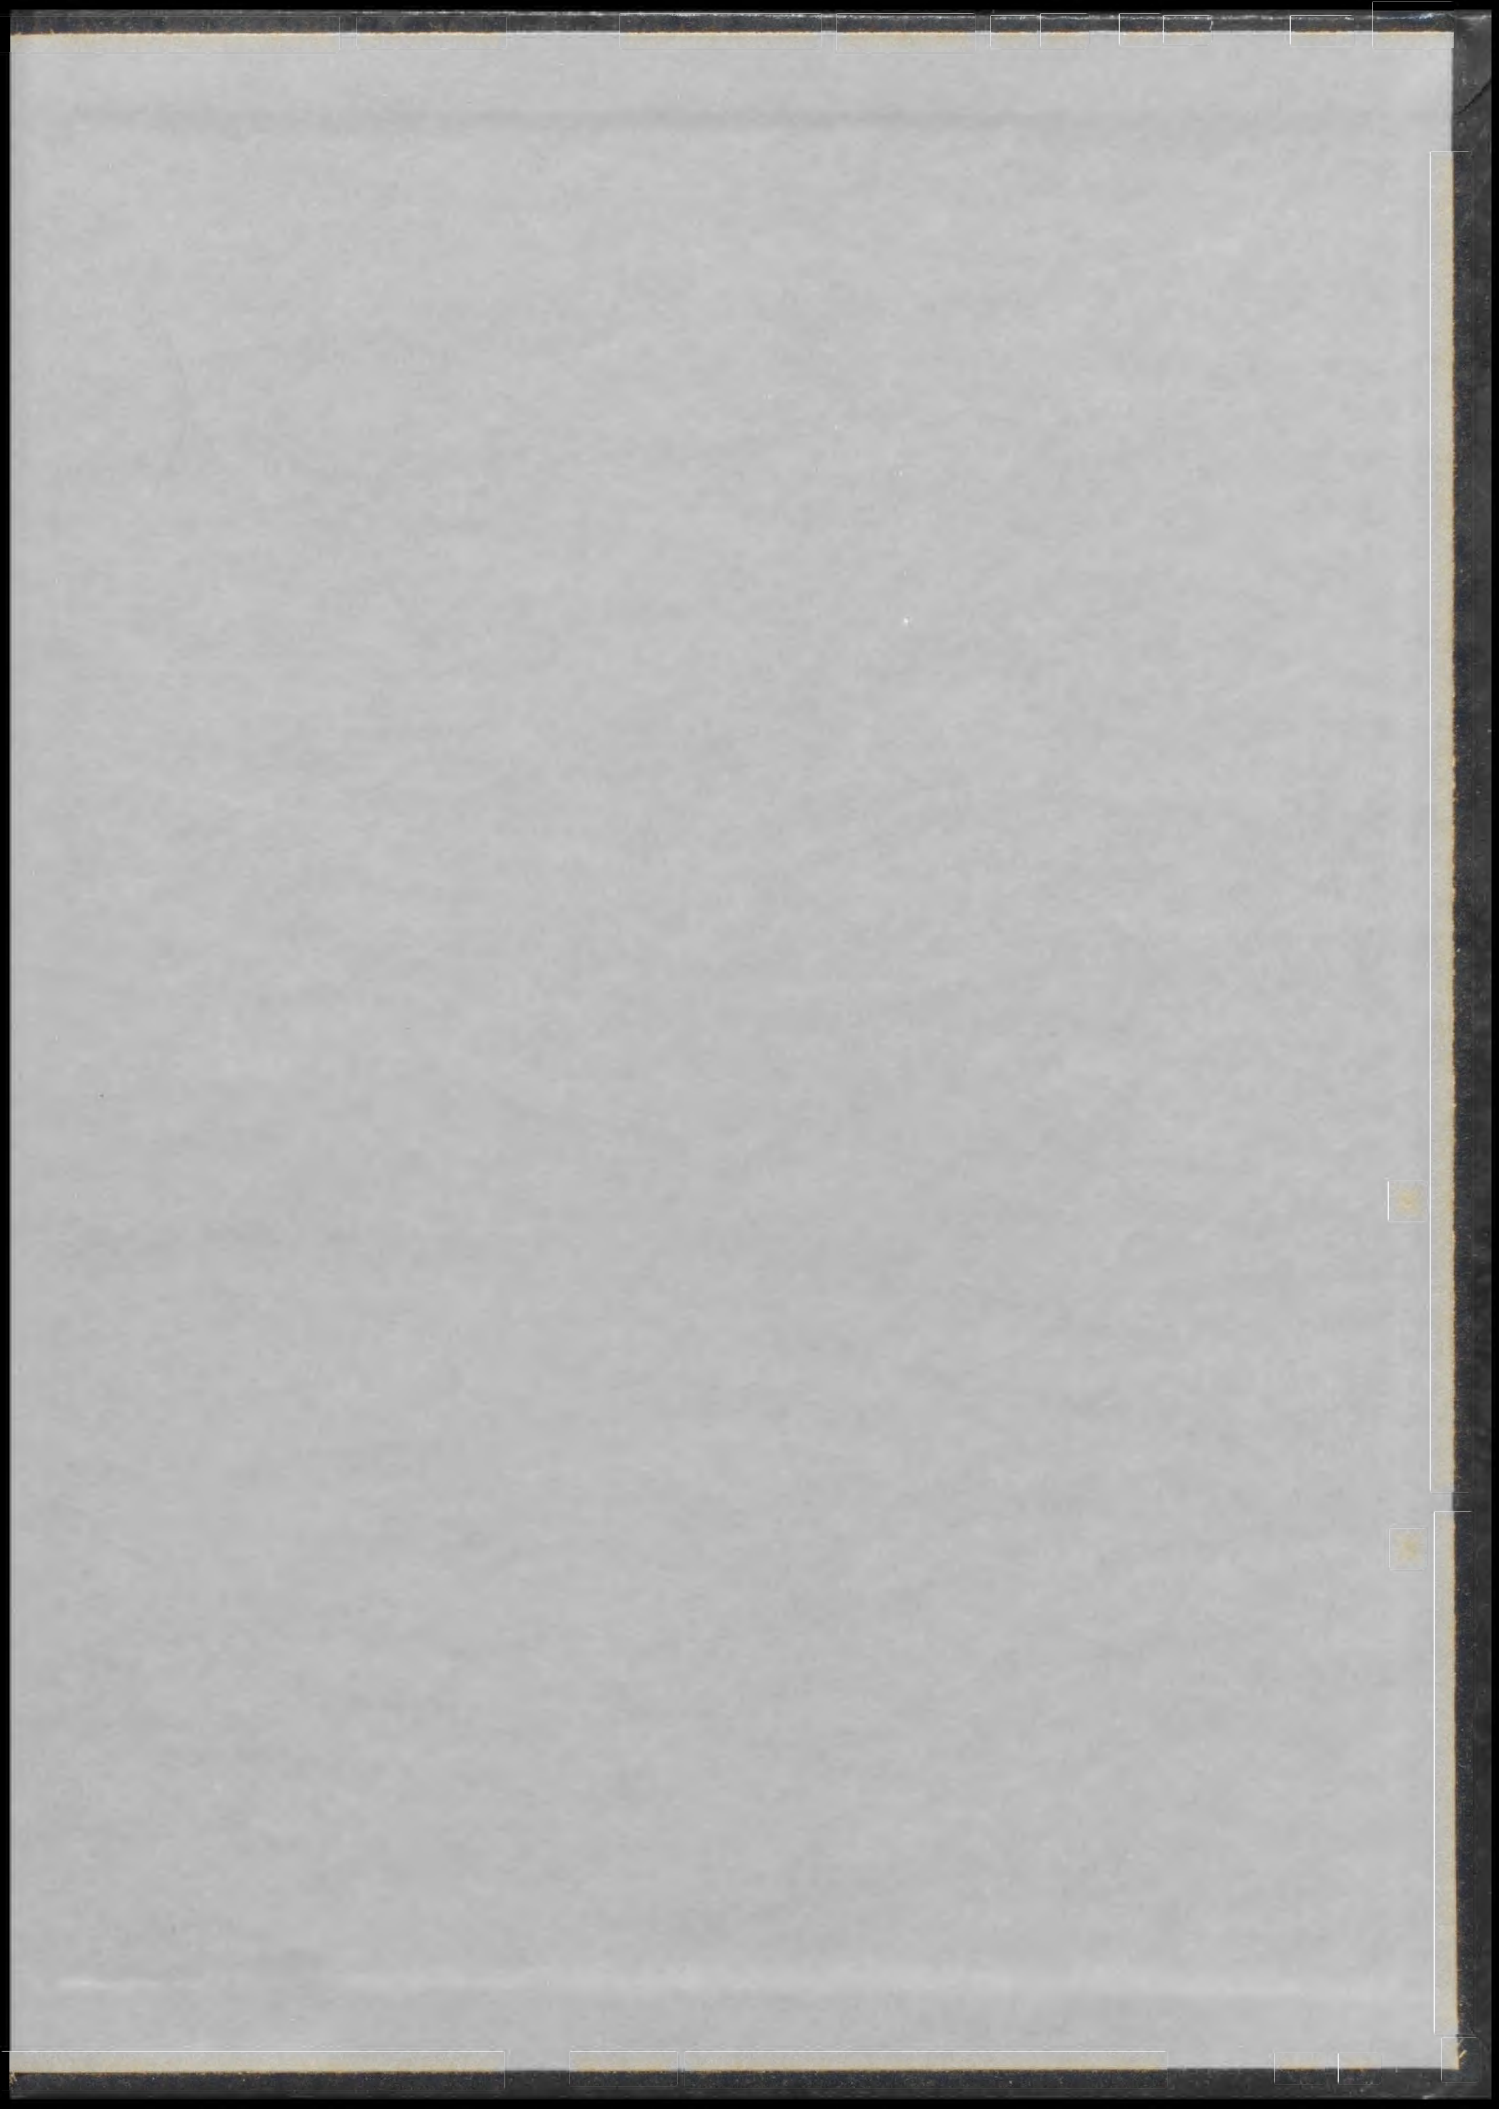

-Robert Frost
