What is it that defines a school? Is it the physical building composed of bricks and steel? In fact, it is defined by those who spend their days walking the halls and participating as members of the community. It is the students who partake in various sports and activities. It is the teachers who spend countless hours. It is the administration, support staff and para-professionals who strive to reach and assist all students. It is the community and the proud cheering fans at the events. It is the spirit that makes us all COMMODORES!

Prom 2006
I hope that the days come easy and the moments pass slow, And each road leads you where you want to go, And if you're faced with a choice, and you have to choose, I hope you choose the one that means the most to you, And if one door opens and another door closed, I hope you keep on walkin' till you find the window, If it's cold outside, show the world the warmth of your smile, But more than anything, more than anything, My wish, for you, is that this life becomes all that you want it to, Your dreams stay big, and your worries stay small, You never need to carry more than you can hold, And while you're out there getting where you're going to, I hope you know somebody loves you, and wants the same things too, Yeah, this, is my wish, I hope you never look back, but ya never forget, All the ones who love you, in the place you left, I hope you always forgive, and you never regret, And you help somebody every chance you get, Oh, you find God's grace, in every mistake, And you always give more than you take, But more than anything, yeah, and more than anything, My wish, for you, is that this life becomes all that you want it to, Your dreams stay big, and your worries stay small, You never need to carry more than you can hold, And while you're out there getting where you're going to, I hope you know somebody loves you, and wants the same things too, Yeah, this, is my wish, Rascal Flatts.

"I took a temporary job here in 1969 and stayed until it became more permanent." With those modest words, Harmon Boyce explains his career of 38 years at VUHS. We put it in powerful terms: Dedication, Excellence, Diligence, Positive Impact, Coach, Mentor, Friend, Scientist and Teacher. We also put it in force with the voices of the Class of 2007 behind us! We thank, celebrate and treasure him!
Engaging, Intriguing, Supportive, Dependable, and Wondrously Funny... There are all words used by students to reference Mr. Dennis West. At VUHS we know what a treasure he is and salute his indomitable spirit and his passion for life. We proudly recognize him as the 2007 Teacher of the Year.

Pampering your pooches and providing quality care away from home.

People marched, demonstrated, fought, argued and voted to make their voices heard. People put the Democrats in control of Congress. People demanded an exit strategy from Iraq. Immigrants marched to show how valuable they are to the American economy. Scientists from the University of Hawaii announced that they had discovered a new planet. A former presidential candidate took a grey-haired man and turned him into an American Idol.

We became the media. MySpace, Facebook, YouTube, and SecondLife were the places to see and be seen. And we learned that it was difficult to leave your house when you lived online. We relied on iTunes, Blockbuster and Netflix to deliver movies directly to our doors. DVRs and online downloads let us watch our favorite TV shows. And our increased online music purchases have further crippled the sales of compact discs.

We grew and we learned. We discovered that dark chocolate was good for lowering the blood pressure, while Cherry and Mint Chocolate were good for making calls. We found out that high school was a lot more fun as a musical. We used our purchasing power to fight AIDS in South Africa, and we bought David Beckham for $50 million. We declared war on global warming, and we were shocked when the only hurricanes to hit the east coast this year brought home the Stanley Cup.

And we finally got some recognition. For one thing, the world in 2006, we the people were named Time magazine's "Person of the Year." And for good reason this year's accomplishments will shape the future. They will forever affect our daily lives. And they will live always in our hearts, in our minds, and in the pages of this yearbook.

Georgia, Georgia. The whole day through. Just a sad sweet song that keeps Georgia on my mind.* Many of you probably didn’t know that Mrs. Kuhns originally hailed from Georgia.

Most of us know her as a caring and permanent part of life at VUHS. Many of us know she and her husband have two daughters and one son. What we bet she didn’t know is how much VUHS appreciates her and looks forward each day to her smile and her accent. Of course we all know we Vermonters don’t have any accent, right!

We all know how much Mrs. Morse gives to VUHS and our students. Meet another reason she smiles so much! Here she is as a very proud grandmother. We spotlight this special person who makes VUHS so memorable a place to learn.
EXPEDITIONS IN SNOW

ON the WILD Side!

Point of View
"Art is a fruit that grows in man, like a fruit on a plant, or a child in its mother's womb." - Jean Arp

"A work of art which did not begin in emotion is not art." - Paul Cezanne

"Art is made to disturb. Science reassure. There is only one valuable thing in art; the thing you cannot explain." - Georges Braque

"The job of the artist is always to deepen the mystery." - Francis Bacon
"Art is either plagiarism or revolution." - Paul Gauguin

"I have forced myself to contradict myself in order to avoid conforming to my own taste." - Marcel Duchamp

"It's all the same to me. I must keep the first impression fresh. If it is lost, I must find it again." - Otto Dix

"The object of art is not to reproduce reality, but to create a reality of the same intensity." - Alberto Giacometti
"The beautiful is in nature, and it is encountered under the most diverse forms of reality. Once it is found it belongs to art, or rather the artist who discovers it." - Gustave Courbet
Photography is a way of feeling, of touching, of loving. What you have caught on film is captured forever... it remembers little things, long after you have forgotten everything." - Aaron Siskind

"To me, photography is an art of observation. It's about finding something interesting in an ordinary place... I've found it has little to do with the things you see and everything to do with the way you see them." - Elliott Erwitt
